

supervisor_pidfile

Synopsis

`supervisor_pidfile = path`

Path is where the Supervisor writes the process ID for the main controlling process.

Example

`supervisor_pidfile = /tmp/supepid`

Defaults

- Linux & OS X: `/var/run/Supervisor.pid`
- Windows XP/2003: `C:\Program Files\pfx\qube\logs\supervisorpid`
- Windows Vista/2008/7: `C:\ProgramData\pfx\qube\logs\supervisorpid`
