

supervisor_user_subjob_limits

Synopsis

```
supervisor_user_subjob_limits = user=limit[,user=limit...]
```

Sets up the user subjob limit for specific users. You can set the limit for all users with [supervisor_default_user_subjob_limit](#).

Example

```
supervisor_user_subjob_limits = root=-1,jimi=20,noel=20,mitch=30
```

Defaults

Unset (empty string)
