

ArtistView 6.7-1 Release Notes

#####

@RELEASE: 6.7-1

#####

==== CL 14057 ====

@FIX:Fix issue when jobs have been both removed and added at the same time from outside of ArtistView between refreshes.

@CHANGE:When checking for removed jobs, only look back 5000 jobs, do not retrieve job ids for all jobs in the queue.

==== CL 14050 ====

@CHANGE:Job Modify Dialog is now scrollable.

==== CL 14041 ====

@FIX:Fix refresh bug that prevented jobs from updating when clicking the refresh button unless they were brand new.

@CHANGE:standardized status icon height so the [job,frame,host,instance] list doesn't adjust when status changes.

@CHANGE:URL for documentation updated

@FIX:Userlist handles missing connection to supervisor without crashing the application

==== CL 13959 ====

@CHANGE:More efficient job refresh. Less tax on the supervisor during refresh
