System Metrics 6.10-1 Release Notes

###

@RELEASE: 6.10-1

###

==== CL 19435 ====
@FIX: add support for loading environment variables from
/etc/sysconfig/pfx_metrics for SysVinit scripts

@NEW: create /etc/sysconfig/pfx_metrics if it does not exist

==== CL 19359 ====
@FIX: job counts, mysql counts, and supervisor dispatch efficiency collectors
fail if there is a root password on the MySQL/MariaDB server

==== CL 19116 ====
@FIX: don't report on filesystems mounted under a certain mountpoint as well as
mounted directly at the mountpoint
